Jul 16, 2007 The luckiest people on earth have survived without water for 8 to 10 days before perishing. What would happen if water disappeared from the earth?

Our planet is lucky enough to have a large moon orbiting not too far away, which makes for very pretty moonlit nights. But for spectacular skies it might almost be METEOROLOGIST JEFF HABY At present Earth is tilted 23.5 degrees on its axis. This is the primary reason for the seasons. When the Earth is tilted toward the sun the
